

## About Us

MS Certification Services Pvt Ltd is one of the largest, most experienced and trusted ISO Certification consulting firm, registered and approved by the IAF to conduct either Audits or provide Consultancy to prepare small and large organizations to achieve its targets, goals and its ISO certificates. Being IAF registered means we know what we do and what you need, to achieve the certificate of any standard of ISO.

MS Certification Services Pvt Ltd Covers Asia, Africa, Australia Europe and North America, with total number of 28 offices around the world.

Why you should hire MS Certification as your ISO consultancy provider?

## Responsibility

Clients place their trust in us to guide them through complicated processes, and represent them to National and International authorities or Certification body's auditors. We work hard to represent the interests of our clients and do everything possible to ensure that regulations and requirements are being followed and achieve compliance.

## Experience

All of our Consultants are Certified Lead Assessors; IRCA approved who have been involved in developing, implementing, training and auditing organizations to numerous ISO standards including ISO 9001, OHSAS 18001, EMS 14001, ISO 22000, IMS, ISO 13485 and ISO 14971 etc. Experience will often allow clients to avoid costly mistakes and most certainly will reduce the learning curve, which will always prove to be a good investment.

## Reach

Beware of consultants that offer to help you meet regulations and requirements but they are not certified and/or they are free-lancer with no organization. MS Certification has real people on the ground in 28 countries. (Please refer to our website for more details of our Global locations)([www.ms-certification.org](http://www.ms-certification.org))

## Contacts

MS Certification Services Pvt Ltd is well known in the industry and stays active in several associations. Over the years, we have made numerous contacts within government agencies, testing labs, associations and others allied with the field. As a result, we can often make things happen faster, less expensively or with better results than might have otherwise occurred.
